

Create a Gift for the Earth!

What you'll need:

- pan, could be any size or shape! muffin tins and bundt pans work great!
- some fruit; we used oranges, cranberries, and some old blueberries
- any nature items you'd like to add, take a look around your yard!
- scissors and yarn

Add all your items to the pan. Don't spend too much time making them perfect, when you add water many move around! Once you fill with water, add a string for hanging and pop in in the freezer or outside.

Time to enjoy! Put it outside on a tree. Admire the beauty but don't be too upset when it melts, animals will enjoy your goodies! Birds and squirrels will be pleased with this winter treat!

Or try to make these mini ornaments with a muffin tin!
