Information is self-reported and subject to change

From weddings to meetings, the Urban Ecology Center offers 14 eco-friendly spaces and many amenities that are perfect for small to fairly large groups.

Our flexible catering policies make it easy for you to customize food and drink exactly the way you would like. You can choose from one of our Earth Friendly Caterers, hire caterer of your choice, or bring in your own food for your event. We have a full service kitchen for you to use while you're here.

Perhaps most importantly, by holding an event at the Urban Ecology Center you are helping children get out into nature. You are helping adults canoe for the first time and teens teaching kids how to grow a garden. You are connecting our community to the natural areas that surround them. Thank you for being a vital part of the community that makes us thrive!
